

Regarding hours of service I would like to be able to log a break during my 14 hours as off duty and not have it count against my 14 hours(as is your encouraging drivers to eat driving down the road)It would be nice to take a break or a shory nap once in a while and not have it count against you . I like the 11 hours of driving time but 10 hours for sleeper berth is to long .I can't sleep 10 hours and wake up and just toss and turn . I like the 34 hour restart
Thanks,Craig Barmore
